ARTICLE XII NACE IN-HOUSE BYLAW: PROPOSAL

NACE member institutions must provide an esports lab/arena or otherwise designated space for competitions. A designated space is a location designated for full or part time esports play to be supervised by a campus official.

NACE Member Esports Facility: An esports lab/arena on or off campus that is suitable for collegiate level esports play.

Campus official: A director, coach, staff, faculty or non-student volunteer designated to oversee NACE collegiate activities.

All NACE competitions will be conducted in the member institution's facility under the administration of a school official/coach except under the following exceptions:

SECTION A – INSTITUTIONAL COMPETITIVE VENUES:

1. **Team Travel:** When a team is traveling to compete in an esports event and has a NACE competition while they are away from campus.
 - a. Teams must make an arrangement to play in an approved esports facility.
2. **Uncontrolled events:** e. g. Inclement weather, security, death, pandemic, campus closure.
 - a. Teams must reach out to the appropriate competition counsel subcommittee for the NACE competition and request exemption assistance.
 - i. **Exemption assistance:** When a school, because of an internal uncontrolled event needs NACE guidance to continue competition. Examples of exemption assistance are as follows:
 - a) Rescheduling of NACE matches.
 - b) Finding alternate arena arrangements if possible.

c) Expanding roster size and/or members beyond the roster rules.

b. Internet and Campus Power Complications:

i. If an institution's arena loses power or internet connectivity during a scheduled NACE match; the issue will be reported to the tournament's competition council subcommittee to make a decision on the state of the match.

a) Should the team have another space on campus or off campus to play their matches in a reasonable time period, institutions will move to that location and resume play.

b) If it is in the best interest of both parties involved to reschedule the match; the match should be rescheduled.

c) Remote play should only be allowed at the Competition Council subcommittee's discretion and is offered as a last resort for competitive integrity.

i. If during a NACE tournament match the server of any game goes down, participants should wait for 30 minutes before receiving guidance from the Competition Council subcommittee for the tournament.

1. If the server is down for more than 30 minutes, the matches should be postponed for a later date or time with the Competition Council subcommittee's discretion.

d. NACE Internal Tournament Delays: If for any reason NACE chooses to suspend league play; all rescheduling and dates of reschedule should be determined by the given Competition Council subcommittee.

i. If a match is rescheduled by NACE to a time where they cannot play in their arena; the team encumbered must reach out to the Competition Council subcommittee for the tournament for guidance on rescheduling or remote play.

e. NACE National Office Guidance: The NACE national office has the right to allow remote play for any institution at any time.

- i. Institutions must report their online student competitors to NACE to have those students grandfathered in to maintain their eligibility.
- ii. By Fall 2022 no new online students should be recruited for NACE esports competitions.

This bylaw would go into effect for NACE competitions starting in the 2021-2022 academic year.

ARTICLE XIII ELIGIBILITY EXEMPTION

Facilitating the path to graduation looks different from student to student, which is why NACE offers exemption from a student's current Intent to Compete form (ITC) based on these criteria.

Exemption: A complete or partial void of a semester or academic year of NACE eligibility. A student may make a request for additional time to be approved by the EEC or ARC. No player may play in more than 5 individual academic years.

Intent to Compete form (ITC): Students who compete in NACE member competitions have signed an Intent to Compete form that grants them 1 year of esports eligibility for their institution and NACE to facilitate the path to graduation.

Institutions not having a large enough roster size or substitutions for individual competitions should not be a reason for individual exemption to an ITC. Reschedules and overall tournament planning throughout an academic year do not fall under an individual ITC exemption for a student or institution.

Institutions and students requesting exemptions must reach out to the NACE Eligibility Enforcement Committee to complete an official exemption process.

SECTION A – NACE INTENT TO COMPETE EXEMPTIONS

1. Medical:

- a. A medical exemption to completely void or partially void a student's ITC can only occur if:
 - i. If a student cannot compete for an entire competition season or academic year because of a serious medical emergency or condition after signing a NACE member ITC.
 - ii. If a student dropped out of school to care for their family who has undergone a serious medical condition after signing a NACE member ITC.
- b. Institutions, coaches and directors can reach out on behalf of students who cannot report themselves for potential exemptions due to medical reasons.

2. Military:

- a. A military exemption to completely void or partially void a student's ITC can only occur if:
 - i. A student is no longer enrolled in full-time classes because of military deployment or training elsewhere for that semester after signing a NACE member ITC.
 - ii. A student is sent for humanitarian or other commitments at the state or federal level for the duration of a competitive season or academic year after signing a NACE member ITC.

3. Senior Status Exemption:

a. A last semester/term senior student exemption to the “full-time student” clause in the ITC applies only if:

i. A senior student who, in their last semester/term, does not have enough credits to be full time while in their last NACE competition season/tournament cycle.

1. This would only account for the last NACE competition season/tournament cycle directly before graduation.

a. This does not account for seniors who are not full time in their semester/term directly before their graduating semester/term.

SECTION B – INSTITUTIONAL/ MASS INTENT TO COMPETE VOID CLAUSE:

1. If any NACE Member institution suspends or removes students from participating on campus due to a natural disaster/disease or unforeseen circumstance, NACE reserves the right to void the ITC’s of students involved at that institution with intent to grant eligibility at a later date.

a. This does not apply if a member institution chooses to close down on their own.

i. If a member institution does close on their own; all ITC’s tied to that institution are null and void as students will not be able to participate in NACE competitions until another ITC is signed.

SECTION C – PATHWAY TO GRADUATION:

1. To sign an Intent to Compete form for a first year, the student must have graduated from high school (or equivalent) and agree to register for the number of classes required to be considered full time at the host institution.
